

MANISH KUMAR THAKUR

Full Stack Web Developer | React.js | Node.js | JavaScript | Responsive Web Development

+91 8595967494 | mkthakur2301@gmail.com | <https://www.linkedin.com/in/manish-kumar-thakur-554036278> | github.com/Manish511T

PROFILE

Full Stack Web Developer with hands-on experience in building responsive, scalable web applications using the MERN stack. Proficient in frontend development, responsive UI design, REST API integration, and browser-compatible implementations. Delivered freelance client projects end-to-end from requirement gathering to production deployment. Seeking practical, implementation-focused web development exposure.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux Toolkit, Tailwind CSS, Responsive Web Design, Mobile-First UI

Backend: Node.js, Express.js, REST APIs, Socket.io, JWT Authentication, WebSockets, Event-Driven Architecture

Database: MongoDB (Geospatial Queries), Firebase

Tools & DevOps: Git, GitHub (Version Control), Postman, Chrome DevTools, Vercel, Render, MongoDB Atlas, CI/CD Pipelines

Core Concepts: DSA & Problem Solving, Performance Optimization, Browser Compatibility, Debugging & Issue Resolution, Geolocation API

PROJECTS

CERN – Community Emergency Response Network

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.io, Leaflet.js, Tailwind CSS, JWT |

GitHub: <https://github.com/Manish511T/CERN> | **Live Demo:** <https://cern-liart.vercel.app/login>

- Built a full-stack real-time emergency dispatch web platform using MERN architecture, with responsive frontend design optimized across mobile, tablet, and desktop browsers.
- Engineered real-time SOS dispatch using Socket.io and MongoDB geospatial queries, delivering sub-2-second volunteer notifications - demonstrating event-driven architecture and frontend-backend coordination.
- Implemented live GPS tracking with bidirectional location streaming (Leaflet.js), Haversine distance calculation, and real-time ETA updates - showcasing complex frontend interface optimization.
- Developed secure JWT authentication with dual-token strategy (access + httpOnly refresh token) and silent auto-refresh interceptor, ensuring uninterrupted user sessions.
- Deployed with CI/CD via GitHub auto-deploy pipeline on Vercel (frontend) and Render (backend); resolved Socket.io circular import and stale closure bugs - demonstrating debugging and issue resolution skills.

AI Movie Explorer – Netflix-Inspired Platform

Tech Stack: React.js, Redux Toolkit, Tailwind CSS, Firebase, TMDB API, Gemini API |

GitHub: <https://github.com/Manish511T/NetflixGPT> | **Live Demo:** <https://gptott-cded0.web.app>

- Developed a fully responsive, Netflix-style web interface using React.js and Tailwind CSS, supporting seamless browsing across mobile, tablet, and desktop screens.
- Integrated Gemini AI and TMDB API to process natural language queries and return contextual movie recommendations, demonstrating API integration and frontend workflow implementation.
- Used Redux Toolkit for global state management, reducing redundant API calls by ~30% and optimizing asynchronous workflows.
- Built Shimmer UI skeleton loaders for perceived performance improvement and implemented robust error handling and fallback UI for API failures.

FREELANCE EXPERIENCE

Freelance Web Developer — 2024

Ghoomo Yatri – Tour & Travel Booking Website | React.js, Firebase

- Delivered a complete client project independently — handling requirement gathering, responsive UI implementation, development workflows, and production deployment.
- Designed a mobile-first, fully responsive UI ensuring consistent browsing experience across smartphones, tablets, and desktops, adhering to web interface optimization standards.
- Built dynamic tour listings with filtering, itineraries, and pricing details, maintaining organized coding documentation throughout.

CERTIFICATIONS

- Namaste React Certification – NamasteDev (Instructor: Akshay Saini)

ACHIEVEMENTS

1st Position – HackQuiz (HIMT, 2025) | **2nd Position** – HIMT Hack Fest 1.0 (2024) | **Finalist** – DSA Hackathon at MIMT (2024)

EDUCATION

Bachelor of Computer Applications (BCA)

Harlal Institute of Management and Technology, Greater Noida

CGPA: 7.27

Aug 2023 – Jul 2026
